Captain Niblack, U. S. N., is engaged in compiling a list of the wrecks that have occurred about the Hawaiian Islands of which there is any record, with a view to laying the matter before the United States Lighthouse Board to strengthen the claims of these islands to greater consideration in the matter of lighting, buoys, etc.

The people who have responded with lists are the Inter-Island Steam Navigation Co., the former Wilders' Steamship Company, Harbormaster Andrew Fuller, T. G. Thrum (the veteran editor of Thrum's Annual) and T. H. Davies & Co., Ltd., representatives in Hawaii for Lloyd's agency.

## SHERMAN HAD MANY BRIDES.

The troopship Sherman departed for Guam and Manila at noon yesterday, amid the waving of handkerchiefs and goodbyes shouted by a large number of townsfolk. The vessel pulled away from the dock promptly.

The Sherman had the honor of carrying away seven brides, but all of them came from the Coast, San Jose, Cal., was fairly well represented. Mrs. John Wilbur Ward, wife of Lieut. Ward, is a bride of less than a year. It was about this time last year that beautiful Mabel Jamison became the bride of Lieut. Ward. Among her accomplishments she is proud to reckon the good old-fashioned arts of housewifery and needlework, and if cooks fail in the land of the Moros, Mrs. Ward will know how to prepare the meals. Two others were Mrs. Hickox and Mrs. John F. Clapham, who was formerly Laura Hathaway, both of San Jose. Lieut. Upham, Lieut. Butcher, Lieut. McLure and Lieut. Hickox complete the Sherman's list of officers who took brides along with them.

## NOEAU ALMOST SANK.

Owing to an extremely heavy load on the forward deck the steamer Noeau almost sank off Makapuu Point on Tuesday. Captain Pederson brought the vessel back to Honolulu, and enough of the cargo was discharged for the vessel to put to sea this morning in a safe condition.

The cargo filled the hold and besides there was thirty-two tons of coal on the forward deck, 14,000 feet of lumber in the alleyways and a quantity of kerosene oil tins stored about the decks. She was down to eleven feet six inches at the bow and twelve feet eight inches aft, whereas her maximum mark is ten feet forward and twelve feet aft.

When off Diamond Head the vessel plunged into heavy seas. Her nose dug down deep and the forward part of the boat was partly submerged and the decks generally were flooded. All doors leading to the lower regions of the boat were closed up tight, and no water, luckily, got into the engine room. Finally Captain Pederson gave orders to put the vessel about and return to Honolulu.

The officers positively refused to go to sea again unless the load was reduced. The matter was also laid before the Masters and Pilots Association.

tion which held a special meeting to consider the matter. It was there declared that no member of the Association should take out the vessel if she was loaded down so deeply as reported. The company accepted the Association's ultimatum, and reduced the load.

## WASN'T AFRAID OF MARSHAL.

E. B. Friel, who was placed aboard the ship W. H. Smith on Tuesday afternoon by Marshal Hendry, after an attachment had been served on the vessel at the instance of Umekihi Naka, a Japanese stevedore who was hurt aboard on Monday, informed Deputy Marshal Winter yesterday that the captain had threatened him. Mr. Friel's letter to Mr. Winter is as follows:

"I am having lots of trouble here. Last night the captain ordered me ashore and told me that he had cleared the ship at the Custom House yesterday at 3 p. m., and would leave this morning as soon as he could get the tug boat to tow him out, and that he would put me ashore and he didn't give a damn for the marshal or any one else. What shall I do?"

Shortly afterward the ship captain stood on the carpet in U. S. District Attorney Breckon's room, and there received some energetic words of advice as to his future conduct while a federal officer remained aboard the ship.

## MARINER'S STRANGE WILL.

According to the will of the late Captain S. H. Lucas, who died a short time ago in Los Angeles, the body is to be cremated, the ashes put in a copper globe, with name and age engraved thereon and under it the following:

"Rocked in the cradle of the deep I lay me down, in peace to sleep."  
The globe is to be given to the officers in charge of some United States man-of-war with the request that it be thrown overboard in the Pacific midway between San Francisco and Honolulu.

Captain Lucas was a man of genius, having invented several useful devices, among them being an agitator for use in concentrators.

## WAIKALE TO PUGET SOUND.

Captain Rennie formerly master of the steamship Mariposa, with other officers and engineers will shortly come to Honolulu to take charge of the Inter-Island steamer Waialeale and take her to Seattle. The Waialeale was recently sold to Cook & Co., of Seattle, agents there of the American-Hawaiian S. S. Co. The little steamer will be put to work about Puget Sound. The Waialeale has been laid up for some time.

## SHIPPING NOTES.

Considerable calling is being done on the schooner Aloha.

On Kauai awaiting shipment are 7500 bags K. S. M. sugar.

The U. S. S. Iroquois came off the Marine Railway yesterday.

The dredger Governor is still out of commission. Extensive repairs are being made.

Ballast is being taken aboard the French ship Charles Gounod preparatory to sailing for Newcastle.

The Mikahala arrived yesterday morning from Makawili. The purser reports the Puka had 650 tons of coal dis' barged at Elele.

The schooner Chas. Levi Woodbury returned yesterday morning from Hilo and Kauai with a cargo of wood. The vessel now has a hoisting engine aboard. She leaves at 5 p. m. today for Hilo with a general cargo.

## WANTED TO KNOW IF WE HAD ROADS

A Honolulu resident while at one of the Southern California hotels was asked by a man of great wealth who had recently bought an automobile, whether there were any roads in the Hawaiian Islands. He was given an affirmative answer. He asked whether there were any autos down here, and was somewhat surprised to learn that about eighty machines were in constant use. He then announced that he would undoubtedly visit the islands in a few months. Often when auto enthusiasts on the mainland hear that automobilism is a pleasure in the Hawaiian Islands they forthwith plan to come here to seek new experiences.

## OBSERVATORY FOR ROCKY HILL SUMMIT

Some changes have been made in the plans of the trustees with regard to the location of the president's house at Oahu College. Instead of being erected far back on the slopes of Rocky Hill, close to the residence of Mrs. Henry Castle in College Hills, the president's home will now be put on the slopes below the water tanks, and the brow of Rocky Hill as well as the slopes, will be parked and set out with fine trees.

The suggestion has been made also that Rocky Hill would be an admirable place for the erection of an astronomical observatory. The college authorities have already had this in mind.
